

## **Matica launches latest advances in direct-to-card technology with Espresso II and Moca II printers**

### **News highlights**

- Carefully designed printer options to accommodate state-of-the-art and evolving ID card needs.
- No stoppage when front door hopper is open with new continuous print action.
- Intelligent technology creates operational efficiencies in card personalization.

**MUNICH, February 1, 2016 – Matica Technologies AG (AOJELZ)**, a worldwide leading vendor for financial and secure ID card issuance systems announces the launch of Espresso II and Moca II: adaptable desktop printers with a choice of carefully designed options primed for offices that need to produce good-looking, single- or dual-sided ID cards.

“Matica’s engineering and development teams have invested careful thought into the new generation of direct-to-card printers in order to create intelligent technology that supports current and evolving business requirements and customer demands,” said Sandro Camilleri, CEO, Matica Technologies AG.

Considering today’s ID card requirements, Espresso II contains durable metal components to ensure a trouble-free and long lasting print production capacity, and aesthetically, enhances any office environment with its elegant, black exterior casing. Moca II comes in a sleek white housing. As part of Matica’s investment in technology strategy, the Espresso II is manufactured in-house in its new factory, opened in Italy in 2015.

How do the Espresso II and Moca II support a busy and demanding office?

### **Good return on investment (ROI)**

Robust, durable and compact, so perfect space-saver and accommodates continuous card printing with with negligible impact beyond natural wear and tear.

### **No stoppage time means time-effective and user-friendly**

New continuous print action when front door hopper is open in addition to enhanced printing and magnetic encoding speed making it one of the fastest solutions in desktop ID market.

### **Convenient and trouble-free connectivity makes them an ally for any modern office**

Single wire encoding via Ethernet including magnetic strip, contact and contactless encoding. Or optional Wifi.

“Engineered with the everyday office in mind, Matica has created the Espresso II and Moca II to support any business needing to produce access control cards, employee and membership ID badges, loyalty cards – in fact, most forms of modern ID cards,” said Harald Zinn, Director of Product Marketing Secure ID.

**Availability**

Espresso II and Moca II are available now through Matica’s partner network.
