CARDS ON THE SPOT™

The Power of NOW

INSTANT ISSUANCE OF DEBIT, CREDIT AND ATM CARDS

Cards On The Spot™ instant issuance solution provides the opportunity to personalize and activate financial cards real-time in the branch, delivering the card immediately into cardholder's hands, helping financial institutions to generate immediate interchange income, reduce issuance costs and potential fraud, and improve customer service.

Financial institutions need reliable and scalable solutions to face the modernization of in-branch services focusing on cost reduction and improving the cardholder's experience.

Cards On The Spot helps institutions retain cardholders and generate income by providing a scalable solution to instantly issue any type of financial card.

Specially designed for financial institutions with more complex needs, *Cards On The Spot* is a browser-based application that provides robust core system integration and generates multiple high-quality printed card types using a single card printer or desktop embosser. It includes up to ten card designs and provides complete history tracking and an audit trail of all system access

for improved security. The Single Sign On (SSO) features allows Windows® credentials to be used for username and password validation making the use of the system even easier.

Cards On The Spot is EMV-ready and is Visa and MasterCard compliant.

- 100% immediate activation
- Increases interchange income
- Reduces fraud
- Reduces issuance costs
- Increases cardholder interaction and sales

- Debit cards
- Credit cards
- ATM Cards
- Close loop payment cards
